

Honorable Marshal Karczewski,

The Polonia Consultative Council concluded its deliberations and there is no possibility of a joint personal statement regarding the brutal attack on you by the mayor of Jersey City, Steven Fulop. We express our solidarity with you and we will stand firm behind you every time anyone who does not know you and matters that you deal with on behalf of the Republic of Poland will be so brutally and groundlessly attacked.

Cultivating the memory of Soviet genocide in Katyn and other places is an essential matter for every Pole.

God bless you in your activities for the good of Poles, Poland and Polonia.

On behalf of and for the attention of the other members of the Polonia Consultative Council.

Stanislaw ALOSZKO
President of the Polish Community of France
